Dimensiones	24 × 17 × 1 cm
Encuadernación	Tapa blanda
Páginas	240
Año	2017
Edición	1era edición
Autor	Poonam Sachdeva, Sumita Mehta
Editorial	Springer
ISBN	9789811017049
Idioma	Inglés

DESCRIPCIÓN DEL PRODUCTO

This book aims to promote awareness of and highlight the screening modalities and various treatment options available for the management of cervical pre-invasive lesions. Cervical cancer is the leading cause of malignancy among women worldwide, and deaths due to cervical cancer represent a global health problem. Yet the risk of cervical malignancy can be decreased substantially if the premalignant conditions of the cervix are recognized and treated in a timely manner.

Colposcopy is the gold standard for the diagnosis of cervical dysplasia. Accordingly, the book details the fundamentals of colposcopy and colposcopic assessment of the normal and abnormal cervix. With preventive oncology taking front stage, colposcopy has become one of the most important diagnostic tools available. With chapters contributed by respected experts in this field, the book offers vital insights into colposcopy and an essential guide to comprehensive strategies for the early detection of cervical cancer.

The main text is complemented by ample illustrations for clarity and a better understanding of the subject. Case discussions on various clinical scenarios will further ensure good clinical practices, which will in turn translate into reduced risk of cervical cancer.

Puntos clave del libro Colposcopy of Female Genital Tract 1st edition

- Provides up to date information on colposcopy
- Offers clear guidance on use of colposcopy as a diagnostic tool for assessing cervical dysplasia
- Presents abundant images
- Presents a large number of cases covering typical clinical scenarios

Índice del libro Colposcopy of Female Genital Tract 1st edition

Part I Cervix
1 Anatomy and Physiology of Cervix
2 Pathology of Preinvasive Lesions of the Cervix

Part II Screening for Cervical Cancer
3 Visual Inspection Methods for Cervical Cancer Prevention
4 Cytology as a Screening Tool
5 Management Recommendations in Abnormal Cytology
6 HPV Detection and Clinical Implications
7 HPV Vaccination

Part III Colposcopy
8 Colposcopy: The Scientific Basis
9 Colposcopic Technique, Scoring and Documentation
10 Colposcopic Appearance of Normal Cervix
11 Colposcopic Evaluation of Preinvasive and Early Cervical Cancer
12 Preinvasive Lesions in Pregnancy and Menopause
13 Colposcopic Examination in Pregnancy
14 CIN: Ablative Therapies
15 Excisional Procedures for Treatment of Intraepithelial Lesions
16 Colposcopy of Vulva and Vagina

Part IV Case Discussion
17 Cases
Appendices
