
Peso	3.7 kg
Dimensiones	22 × 28 × 8 cm
Encuadernación	Tapa dura
Páginas	1720
Año	2022
Edición	6a edición
Autor	Charles G. Prober, David Kimberlin, Marc Fischer, Sarah S. Long
Editorial	Elsevier
ISBN	9780323756082

DESCRIPCIÓN DEL PRODUCTO

Comprehensive in scope, yet concise and easy to manage, Principles and Practice of Pediatric Infectious Diseases 6th Edition, by Drs. Sarah S. Long, Charles G. Prober, Marc Fischer, and new editor David Kimberlin, is your go-to resource for authoritative information on infectious diseases in children and adolescents. A veritable "who's who" of global authorities provides the practical knowledge you need to understand, diagnose, and manage almost any pediatric infectious disease you may encounter.

Puntos clave del libro Principles and Practice of Pediatric Infectious Diseases 6th Edition

- Features a **consistent, easy-access format** with high-yield information boxes, highlighted key points, and an abundance of detailed illustrations and at-a-glance tables.
- Allows **quick look-up** by clinical presentation, pathogen, or type of host.
- Includes coverage of the latest vaccine products, recommendations, and effectiveness as well as expanded diagnostics and therapies for autoinflammatory/periodic fever syndromes.
- Covers emerging viruses such as Zika, Ebola, and EV-D68, as well as infectious risks of immunomodulating drugs and expanding antimicrobial resistance patterns.
- Discusses expanding antimicrobial resistance patterns and new therapies for viral and fungal infections and

resistant bacterial infections.
- Expert Consult eBook version included with purchase. This enhanced eBook experience allows you to search all of the text, figures, images, videos (including video updates), glossary, and references from the book on a variety of devices.

Índice del libro Principles and Practice of Pediatric Infectious Diseases 6th Edition

PART I: Understanding, Controlling, and Preventing Infectious Diseases
Section A. Epidemiology and Control of Infectious Diseases
1. Principles of Epidemiology and Public Health
2. Pediatric Healthcare: Infection Epidemiology, Prevention and Control, and Antimicrobial Stewardship
3. Infections Associated With Group Childcare
4. Infectious Diseases in Refugee and Internationally Adopted Children
Section B. Prevention of Infectious Diseases
5. Passive Immunization
6. Active Immunization
7. Antimicrobial Chemoprophylaxis
8. Protection of Travelers
Section C. Host Defenses Against Infectious Diseases
9. Immunologic Development and Susceptibility to Infection
10. Fever and the Inflammatory Response

PART II: Clinical Syndromes and Cardinal Features of Infectious Diseases: Approach to Diagnosis and Initial Management
Section A. Septicemia, Toxin-, and Inflammation-Mediated Syndromes
11. The Systemic Inflammatory Response Syndrome, Sepsis, and Septic Shock
12. Hemophagocytic Lymphohistiocytosis and Macrophage Activation Syndrome
Section B. Cardinal Symptom Complexes
13. Mucocutaneous Symptom Complexes
14. Fever Without Localizing Signs
15. Prolonged, Recurrent, and Periodic Fever Syndromes
16. Lymphatic System and Generalized Lymphadenopathy
17. Cervical Lymphadenitis and Neck Infections
18. Mediastinal and Hilar Lymphadenopathy
19. Abdominal and Retroperitoneal Lymphadenopathy

20. Localized Lymphadenitis, Lymphadenopathy, and Lymphangitis
21. Respiratory Tract Symptom Complexes
22. Abdominal Symptom Complexes
23. Neurologic Syndromes
24. Musculoskeletal Symptom Complexes

Section C. Oral Infections and Upper and Middle Respiratory Tract Infections

25. Infections of the Oral Cavity
26. The Common Cold
27. Pharyngitis
28. Infections Related to the Upper and Middle Airways
29. Otitis Media
30. Otitis Externa and Necrotizing Otitis Externa
31. Mastoiditis
32. Sinusitis

Section D. Lower Respiratory Tract Infections

33. Bronchiolitis
34. Acute Pneumonia and Its Complications
35. Persistent and Recurrent Pneumonia
36. Pneumonia in the Immunocompromised Host

Section E. Cardiac and Vascular Infections

37. Endocarditis and Other Intravascular Infections
38. Myocarditis
39. Pericarditis

Section F. Central Nervous System Infections

40. Acute Bacterial Meningitis Beyond the Neonatal Period
41. Chronic Meningitis
42. Recurrent Meningitis
43. Aseptic and Viral Meningitis
44. Encephalitis
45. Parainfectious and Postinfectious Neurologic Syndromes
46. Focal Suppurative Infections of the Nervous System
47. Eosinophilic Meningitis

Section G. Genitourinary Tract Infections

48. Urinary Tract Infections, Renal Abscess, and Other Complex Renal Functions
49. Sexually Transmitted Infection Syndromes
50. Genitourinary Skin and Mucous Membrane Infections and Inguinal Lymphadenopathy
51. Urethritis, Vulvovaginitis, and Cervicitis
52. Pelvic Inflammatory Disease
53. Epididymitis, Orchitis, and Prostatitis
54. Infectious Diseases Associated With Child Abuse

Section H. Gastrointestinal and Tract Infections and Intoxications

55. Approach to the Diagnosis and Management of Gastrointestinal Tract Infections
56. Viral Gastroenteritis
57. Inflammatory Enterocolitis
58. Enteric Diseases Transmitted Through Food, Water, and Zoonotic Exposures

Section I. Intra-abdominal Infections

59. Acute Hepatitis
60. Chronic Hepatitis
61. Granulomatous Hepatitis
62. Acute Pancreatitis
63. Cholecystitis and Cholangitis
64. Peritonitis
65. Appendicitis
66. Intra-abdominal, Visceral, and Retroperitoneal Abscesses

Section J. Skin and Soft-Tissue Infections

67. Superficial Bacterial Skin Infections and Cellulitis
68. Erythematous Macules and Papules
69. Vesicles and Bullae
70. Purpura
71. Urticaria and Erythema Multiforme
72. Papules, Nodules, and Ulcers
73. Subcutaneous Tissue Infections and Abscesses
74. Myositis, Pyomyositis, and Necrotizing Fascitis

Section K. Bone and Joint Infections

75. Osteomyelitis
76. Infectious and Inflammatory Arthritis
77. Diskitis
78. Transient Synovitis

Section L. Eye Infections

79. Conjunctivitis in the Neonatal Period (Ophthalmia neonatorum)
80. Conjunctivitis Beyond the Neonatal Period
81. Infective Keratitis
82. Infective Uveitis, Retinitis, and Chorioretinitis
83. Endophthalmitis
84. Preseptal and Orbital Infections

Section M. Infections Related to Trauma, Animals, and Ticks

85. Infection Related To Trauma
86. Infections Related to Burns
87. Infection Related To Bites
88. Infections Related to Pets and Exotic Animals
89. Tickborne Infections

Section N. Infections of the Fetus and Newborn

90. Clinical Approach to the Neonate With Suspected Infection
91. Chorioamnionitis and Neonatal Consequences
92. Bacterial Infections in the Neonate
93. Viral Infections in the Fetus and Neonate
94. Healthcare-Associated Infections in the Neonate

Section O. Infections and Transplantation

95. Infections in Solid Organ Transplant Recipients
96. Infections in Hematopoietic Cell Transplant Recipients

Section P. Infections and Cancer

97. Risk Factors and Infectious Agents in Children With Cancer: Fever and Granulocytopenia
98. Clinical Syndromes of Infection in Children With Cancer

Section Q. Infections Associated With Hospitalization and Medical Devices

99. Healthcare-Associated Infections
100. Clinical Syndromes of Device-Associated Infections

Section R. Infections in Patients With Deficient Defenses

101. Evaluation of the Child With Suspected Immunodeficiency
102. Infectious Complications of Antibody Deficiency
103. Infectious Complications of Complement Deficiency and Diseases of Its Dysregulation
104. Infectious Complications of Dysfunction or Deficiency of Polymorphonuclear and Mononuclear Phagocytes
105. Infectious Complications of Cell-Mediated Immunity Other Than AIDS: Primary Immunodeficiencies
106. Infectious Complications in Special Hosts
107. Infections Related to Biologic Response Modifying Drug Therapy
108. Infectious Complications of Corticosteroid Therapy

Section S. Human Immunodeficiency Virus and the Acquired Immunodeficiency Syndrome

109. Epidemiology and Prevention of HIV Infection in Infants, Children, and Adolescents
110. Immunopathogenesis of HIV-1 Infection
111. Diagnosis and Clinical Manifestations of HIV Infection
112. Infectious Complications of HIV Infection
113. Management of HIV Infection

PART III: Etiologic Agents of Infectious Diseases

Section A. Bacteria

114. Classification of Bacteria

Gram-Positive Cocci

115. Staphylococcus aureus
116. Coagulase-Negative Staphylococci and Micrococcaceae
117. Classification of Streptococci
118. Streptococcus pyogenes (Group A Streptococcus)
119. Streptococcus agalactiae (Group B Streptococcus)
120. Enterococcus Species
121. Viridans Streptococci, Abiotrophia and Granulicatella Species, and Streptococcus bovis Group
122. Groups C and G Streptococci

123. Streptococcus pneumoniae
124. Other Gram-Positive, Catalase-Negative Cocci: Leuconostoc and Pediococcus Species and Other Genera

Gram-Negative Cocci

125. Neisseria meningitidis
126. Neisseria gonorrhoeae
127. Other Neisseria Species

Gram-Positive Bacilli

128. Arcanobacterium haemolyticum
129. Bacillus Species (Including Anthrax)
130. Corynebacterium diphtheriae
131. Other Corynebacteria
132. Listeria monocytogenes
133. Other Gram-Positive Bacilli
134. Mycobacterium tuberculosis
135. Mycobacterium Nontuberculosis Species
136. Nocardia Species

Enterobacteriaceae: Gram-Negative Bacilli

137. Escherichia coli
138. Klebsiella and Raoultella Species
139. Klebsiella granulomatis: Granuloma Inguinale (Donovanosis)
140. Enterobacter, Cronobacter, and Pantoea Species
141. Citrobacter Species
142. Less Commonly Encountered Enterobacterales
143. Plesiomonas shigelloides
144. Proteus, Providencia, and Morganella Species
145. Serratia Species
146. Salmonella Species
147. Shigella Species
148. Yersinia Species

Nonenterobacteriaceae: Gram-Negative Bacilli

149. Acinetobacter Species
150. Aeromonas Species
151. Less Commonly Encountered Nonenteric Gram-Negative Bacilli
152. Eikenella, Pasteurella, and Chromobacterium Species
153. Moraxella Species
154. Pseudomonas Species and Related Organisms
155. Pseudomonas aeruginosa
156. Burkholderia cepacia Complex and Other Burkholderia Species
157. Stenotrophomonas maltophilia
158. Vibrio cholerae (Cholera)
159. Other Vibrio Species

Gram-Negative Coccobacilli

160. Bartonella Species (Cat-Scratch Disease)
161. Brucella Species (Brucellosis)
162. Bordetella pertussis (Pertussis) and Other Bordetella Species
163. Campylobacter jejuni and Campylobacter coli
164. Other Campylobacter Species
165. Capnocytophaga Species
166. Chlamydophila (Chlamydia) pneumoniae
167. Chlamydia trachomatis
168. Chlamydia (Chlamydophila) psittaci (Psittacosis)
169. Coxiella burnetii (Q Fever)
170. Family Anaplasmataceae (Anaplasmosis, Ehrlichiosis, Neorickettsiosis, and Neoehrlichiosis)
171. Francisella tularensis (Tularemia)
172. Haemophilus influenzae
173. Other Haemophilus Species and Aggregatibacter Species
174. Helicobacter pylori
175. Other Gastric and Enterohepatic Helicobacter Species
176. Kingella Species
177. Legionella Species
178. Rickettsia rickettsii (Rocky Mountain Spotted Fever)
179. Other Rickettsia Species
180. Streptobacillus moniliformis (Rat-Bite Fever)
181. Other Gram-Negative Coccobacilli

Treponemataceae (Spiral Organisms)

182. Treponema pallidum (Syphilis)
183. Other Treponema Species
184. Leptospira Species (Leptospirosis)
185. Borrelia burgdorferi (Lyme Disease)
186. Other Borrelia Species and Spirillum minus

Anaerobic Bacteria

187. Anaerobic Bacteria: Clinical Concepts and the Microbiome in Health and Disease
188. Clostridium tetani (Tetanus)
189. Clostridium botulinum (Botulism)
190. Clostridioides difficile
191. Other Clostridium Species
192. Bacteroides and Prevotella Species and Other Anaerobic Gram-Negative Bacilli
193. Fusobacterium Species
194. Anaerobic Cocci
195. Anaerobic Gram-Positive Nonsporulating Bacilli (Including Actinomycosis)

Mycoplasma

196. Mycoplasma pneumoniae

197. Other Mycoplasma Species
198. Ureaplasma urealyticum
Diseases of Possible Infectious or Unknown Etiology
199. Kawasaki Disease
200. Myalgic Encephalomyelitis/Chronic Fatigue Syndrome (ME/CFS)
Section B. Viruses
201. Classification of Human Viruses
DNA Viruses: Poxviridae
202. Poxviridae
DNA Viruses: Herpesviridae
203. Introduction to Herpesviridae
204. Herpes Simplex Virus
205. Varicella-Zoster Virus
206. Cytomegalovirus
207. Human Herpesviruses 6 and 7 (Roseola, Exanthem Subitum)
208. Epstein-Barr Virus (Mononucleosis and Lymphoproliferative Disorders)
209. Human Herpesvirus 8 (Kaposi Sarcoma–Associated Herpesvirus)
DNA Viruses: Adenoviridae
210. Adenoviruses
DNA Viruses: Papovaviridae
211. Human Papillomavirus
212. BK, JC, and Other Human Polyomaviruses
DNA Viruses: Hepadnaviridae
213. Hepatitis B and Hepatitis D Viruses
DNA Viruses: Parvoviridae
214. Human Parvoviruses (Parvovirus B19 and Bocavirus)
RNA Viruses: Reoviridae
215. Coltivirus (Colorado Tick Fever)
216. Rotaviruses
RNA Viruses: Togaviridae, Flaviviridae, and Bunyaviridae
217. Togaviridae: Alphaviruses
218. Flaviviruses
219. Bunyaviruses
220. Hepatitis C Virus
221. Rubella Virus
RNA Viruses: Coronaviridae
222. Human Coronaviruses
RNA Viruses: Paramyxoviridae
223. Parainfluenza Viruses
224. Mumps Virus
225. Respiratory Syncytial Virus

226. Human Metapneumovirus
227. Rubeola Virus: Measles and Subacute Sclerosing Panencephalitis

RNA Viruses: Rhabdoviridae

228. Rabies Virus

RNA Viruses: Orthomyxoviridae

229. Influenza Viruses

RNA Viruses: Arenaviridae and Filoviridae

230. Filoviruses and Arenaviruses

RNA Viruses: Retroviridae

231. Introduction to Retroviridae
232. Human T-Cell Lymphotropic Viruses
233. Human Immunodeficiency Virus

RNA Viruses: Picornaviridae

234. Introduction to Picornaviridae
235. Polioviruses
236. Enteroviruses and Parechoviruses
237. Hepatitis A Virus
238. Rhinoviruses

RNA Viruses: Caliciviridae

239. Caliciviruses
240. Astroviruses
241. Hepatitis E Virus

Section C. Fungi

242. Classification of Fungi
243. Candida Species
244. Aspergillus Species
245. Agents of Hyalohyphomycosis and Phaeohyphomycosis
246. Agents of Mucormycosis
247. Malassezia Species
248. Sporothrix schenckii Complex (Sporotrichosis)
249. Cryptococcus Species
250. Histoplasma capsulatum (Histoplasmosis)
251. Pneumocystis jirovecii
252. Blastomyces Species (Blastomycosis)
253. Coccidioides immitis and Coccidioides posadasii (Coccidioidomycosis)
254. Superficial Fungal Infections
255. Agents of Eumycotic Mycetoma: Pseudallescheria boydii and Scedosporium apiospermum

Section D. Human Parasites and Vectors

256. Classification of Parasites
257. Ectoparasites (Lice and Scabies)

Protozoa

258. Babesia Species (Babesiosis)
259. Balantioides coli (Formerly Balantidium coli)
260. Blastocystis Species
261. Cryptosporidium Species
262. Endolimax nana
263. Entamoeba histolytica (Amebiasis)
264. Other Entamoeba, Amebae, and Intestinal Flagellates
265. Giardia intestinalis (Giardiasis)
266. Cystoisospora (Isospora) and Cyclospora Species
267. Leishmania Species (Leishmaniasis)
268. Microsporidia
269. Naegleria fowleri
270. Acanthamoeba Species
271. Plasmodium Species (Malaria)
272. Sarcocystis Species
273. Toxoplasma gondii (Toxoplasmosis)
274. Trichomonas vaginalis
275. Trypanosoma Species (Trypanosomiasis)

Nematodes

276. Intestinal Nematodes
277. Tissue Nematodes
278. Blood and Tissue Nematodes: Filarial Worms

Cestodes

279. Diphyllobothriidae, Dipylidium and Hymenolepis Species
280. Taenia solium, Taenia asiatica, and Taenia saginata: Taeniasis and Cysticercosis
281. Echinococcus Species: Agents of Echinococcosis
282. Taenia (Multiceps) multiceps and Taenia serialis: Coenurosis

Trematodes

283. Intestinal Trematodes
284. Clonorchis, Opisthorchis, Fasciola, and Paragonimus Species
285. Blood Trematodes: Schistosomiasis

PART IV: Laboratory Diagnosis and Therapy for Infectious Diseases

Section A. The Clinician and the Laboratory

286. Laboratory Diagnosis of Infection Due to Bacteria, Fungi, Parasites, and Rickettsiae
287. Laboratory Diagnosis of Infection Due to Viruses, Chlamydia, and Mycoplasma
288. Use of Common Clinical Laboratory Tests to Assess Infectious and Inflammatory Diseases

Section B. Anti-Infective Therapy

289. Principles of Anti-Infective Therapy
290. Mechanisms and Detection of Antimicrobial Resistance
291. Pharmacokinetic and Pharmacodynamic Basis of Optimal Antimicrobial Therapy
292. Antibacterial Agents

293. Antifungal Agents
294. Topical Antimicrobial Agents
295. Antiviral Agents
296. Antiparasitic Agents
